

4115. WORKSHEET A-7 - ANALYSIS OF CHANGES IN CAPITAL ASSET BALANCES

This part enables the Medicare program to analyze the changes that occurred in your capital asset balances during the current reporting period. This worksheet is completed only once for the entire SNF complex.

The analysis of changes in capital asset balances during the cost reporting period must be completed by all SNFs and SNF health care complexes. Do not reduce the amount entered by any accumulated depreciation reserves.

Columns 1 and 6.--Enter the balance recorded in your books of accounts at the beginning of your cost reporting period (column 1) and at the end of your cost reporting period (column 6).

Columns 2 through 4.--Enter the cost of capital assets acquired by purchase (including assets transferred from another provider, noncertified health care unit, or non-healthcare unit) in column 2 and the fair market value at date acquired of donated assets in column 3. Enter the sum of columns 2 and 3 in column 4.

Column 5.--Enter the cost or other approved basis of all capital assets sold, traded, or transferred to another provider, a noncertified health care unit, or non-healthcare unit or retired or disposed of in any other manner during your cost reporting period.

The sum of columns 1 and 4 minus column 5 equals column 6.

Column 7.--Enter the initial acquisition cost of fully depreciated assets for each category. An asset that is fully depreciated and continues to be used in the facility must be recorded in this column. There will be no depreciation expense recorded after the asset is fully depreciated.
